

Good News

For Willing Workers.

Every indication at present points to an unmistakable era of prosperity in the near future. Men and women are given employment after months of idleness. Wages are being increased. The outlook for crops was never better in the history of the country. Money is sure to be in plentiful circulation before the autumn is ended. *Now is the time to lay your plans for fall and winter work.*

We Offer

inducements to join in a legitimate and profitable business that cannot be equaled. Our 16-page circular gives full details of the Greatest Medicine in the World. We propose, for a short time only, to send you a stock of our goods to begin with, and trust to your honesty for our payments.

To still further aid our agents, we have recently had our Great Remedy, **EGYPTIAN REGULATOR TEA, put up in half size or 50-cent packages**, containing exactly one-half the quantity of the full One Dollar size. Agents are meeting with great success selling the smaller package in these times of tight money, consequent upon general lack of employment, which has so long prevailed. Times are, we are happy to say, rapidly improving, and must continue to improve until we shall see a degree of prosperity never before reached in this country.

You can sell our Great Remedy easily and quickly. *It is the best in the world*, and hardly a family in the land is lucky enough not to need just such a medicine. You can sell a dozen 50-cent sizes every day and not half try, thus making the snug sum of \$3.00 without drudgery or manual labor. *Why not try it?*

Fill out enclosed Order Blank No. 7, **enclosing only One Dollar as a mark of good faith**, and we will send you either **one dozen full-size Dollar packages** or **two dozen 50-cent sizes**, with samples and circulars for free distribution. You can't help but make from \$12.00 to \$30.00 per week, even if you work but half your time. *You run no risk and are your own boss. Our agents all make money.*

Act promptly, as we may withdraw this Great Offer as soon as the field is taken up. When ordering, be sure and state whether you wish the 50-cent or \$1.00 size.

Respectfully,

THE EGYPTIAN DRUG CO.

88 Warren Street, New York.

(SEE OTHER SIDE)

"There is a tide in the affairs of men (and women too) which, taken at the flood, leads on to fortune."

IN THE WORKSHOP.

Why toil incessantly from morning till night, labor unions to control you, frequent strikes, earnings scant wages? Six months ago Robert Graham of Thomaston, N. Y. left the workshop to sell EGYPTIAN TEA. In twenty-four weeks he has earned \$1,380, or an average of \$55 per week. He writes, "My prospects look brighter every day."

A life full of hard labor, little or no pay. We have an agent in New Jersey, George Willis, who never earned more than \$25 a month on the farm. He has been selling EGYPTIAN TEA for a year, and has averaged nearly \$40 per week, working only eight hours a day. Mr. Willis's address is Westfield, N. J., P. O. Box 85.

ON THE FARM.

This is a picture of Edward Thunston, of St. Louis, Mo., who had sense enough to grasp a good thing when he saw it. He left the farm to sell EGYPTIAN TEA and has saved enough money to build a hotel in his native town. He is now a prosperous business man and travels principally in Southern Missouri. The same chance that Mr. Thunston had is now offered to you. Can you afford to let it pass? "God helps those who help themselves." The way is open; read, learn and act. Such chances do not often occur.

IN THE FACTORY.

Long dreary hours of hard work; about enough pay to keep body and soul together. This is the experience of the average factory hand. Charles T. Harvey, of Cincinnati, has never regretted that he cut loose from the factory to sell EGYPTIAN TEA. He writes: "I have been selling your remedy for eight months and have saved enough money to buy a home for my wife and little ones."

IN THE STORE.

Constant and tiresome labor, long hours, poor pay and slim prospects for getting on in life. This is a true picture of clerking in the store. Harry Cornwell, a bright young man of Northern New York, left the store to travel and sell EGYPTIAN TEA. He is now in Western Massachusetts, and averages \$30 per week profit on his sales. He writes: "I have saved enough money to marry the girl I love."
